April 2019

IF YOU ARE KEEPING YOUR BOAT AT WCYC PROPERTY, IT IS REQUIRED THAT YOU HAVE YOUR INSURANCE AND REGISTRATION ON FILE. IF WE DO NOT HAVE A CURRENT COPY, WE WILL NOT LAUNCH YOUR BOAT. THIS IS A CLUB REQUIREMENT

WCYC Marine Service would like to remind all boat storage customers that the launch and spring start up of your boat is included in your winter storage agreement with us. This program includes the following;

- ☑ Inspection of bellows for cracks and dry rot (these are the flexible black rubber gaskets that seal the water out where the universal joint, shift cable, and exhaust run between the boat and drive).
- ☑ Check, charge battery (if needed) and reconnect terminals.
- ☑ Summerize engine by installing all engine drain plugs, check all fluids, and start engine
- ☑ Check oil pressure and verify cooling system is functioning
- ☑ Install hull plug & make sure boat floats properly
- ☑ Safety devices are checked; blower, bilge pump, horn, and lights
- ☑ Boats will receive a basic rinse/wash to remove dust & dirt from the winter storage season
- ☑ *Boats will be fueled up unless otherwise discussed (this is highly recommended to help reduce ethanol issues with engine performance). Gas will be charged to credit card on file.

The following items are NOT included with your spring start up; PLEASE CHECK ANY REQUESTS

- ☐ Engine water pump impeller replacement (highly recommended yearly)
- ☐ Engine tune-up (recommended every years or two in the spring)
- ☐ Engine oil & filter change, includes fuel filter (recommended yearly in the fall)
- ☐ Zinc Anode replacement (recommended every few years when worn)
- ☐ Standard exterior wash with waxing of the outside hull
- ☐ Interior detailing or Carpet cleaning
- ☐ Boat canvas wash & water proofing
- ☐ Check expiration date on fire extinguisher (it will be replaced if expired or out of compliance)
- ☐ Any Additional Requests:_____
