

August 25, 2021

Greetings from the staff at WCYC Marine Services. We would like to thank you for choosing us for your marine service needs. Attached are prices and options for winter storage with WCYC Marine Service @ the Wolfeboro Corinthian Yacht Club.

Standard winter storage options are “Inside” or “Outside” (outside with shrink wrap is less expensive). Storage rates include hauling of your boat and winterization (draining engine and manifold, fill and flush with antifreeze, stabilize fuel, outdrive oil check, battery disconnect) AND de-winterization with launch in the spring.

MANUFACTURER’S RECOMMENDATIONS: Please refer to your owner’s manual for specific service requirements, BUT engine manufacturer’s recommend every 100 hours of use OR yearly the following:

- *CHANGE ENGINE OIL & FILTER (stern drive, 4 stroke outboard & wave runner)
- *CHANGE GEAR LUBE (lower unit oil)
- *REMOVE OUTDRIVE, INSPECT BELLOWS, CHECK ALIGNMENT, ETC.
REPLACE WATER PUMP IMPELLER (every 2 years)
- ENGINE TUNE UP
- *Recommended in the fall

It is a very short boating season, so we ask that you think about any additional services needed, that could be performed during the winter. The following are some items to consider getting worked on during the off season;

- Canvas & Boat cover rips or tears
- Seat / Upholstery repair
- Stern Drive Maintenance (replace bellows and/or U-joints, anode replacement, and cable Wear & tear).
- Steering, shift & throttle cables
- Exterior damage on hull (gel coat problems, oxidation, or buffing)
- Propeller damage & Skeg repair

If you have any specific storage or winterization questions or concerns, please do not hesitate to call us at 603-569-1234. Please leave a detailed voice mail and we will get back to you.
